

**Cell Culture Grade Water
(CCGW)**
Catalog Number: 0600

Product Description

Cell Culture Grade Water is designed for use in all cell culture and molecular biology applications. It is DNase, RNase, and pyrogen-free and is negative for protease activity. The water has undergone purification via activated carbon, reverse osmosis, deionization, ultraviolet disinfection, and distillation. This ultra pure filtered water is finally filtered through a 0.2 μ m membrane filter.

Product Use Statement

THESE PRODUCTS ARE FOR RESEARCH USE ONLY. Not approved for human or veterinary use, for application to humans or animals, or for use in clinical or in vitro procedures.

Caution: If handled improperly, some components of this product may present a health hazard. Take appropriate precautions when handling this product, including the wearing of protective clothing and eyewear. Dispose of properly.
